The rankings are of Archers who have specifically requested to be considered for selection to the County Team. These archers must let the Captain know (if you haven't already done so) of their availability to shoot County Matches that have already been confirmed (these can be found on this website with details of how to let the Captain know). Thank you, to all the above archers for their efforts.

If your name is not here and you wish to be considered for the County Team at a later date, please let the Captain have scores of 12 dozen rounds shot in competitions during 2018.

Archers with an Asterisk by their ranking means they did not complete Two out of Three selection shoots.
